Issue 3 September 1997

a note from the editor

Welcome to our overseas members.

Just to let you know that the Fanzine is now edited and written by me, Chris! Anna has moved on with her career and has sadly said goodbye. She thanks you for all your letters. This issue is a very exciting one because it comes after the incredible news that Savage Garden have been nominated for 13 ARIA awards (music awards in Australia). The awards take place on September the 22nd. I am sure you join me in wishing the guys the best of luck. Just a quick note to let you know that when you join the Fanzine you get a years subscription to the Fanzine which is four issues. So if you joined say, last month you would receive that issue and the next THREE. Some people have expressed concern that they are missing previous issues. When you join you receive the current issue and onward. Previous Fanzines are available should you wish to purchase them. Also to let you know, please understand that Darren and Daniel appreciate the letters you send. Lately they really don't have time to read all their fan mail, but here at the Fanzine we really do read each and every letter and pass on your good wishes when we catch up with the boys. We always pass on special letters and insist that the guys sit down with a pile of some of the letters whenever we pin them down. They are as always very grateful for your love and support and are working hard to continue making and performing the music that you love.

Enclosed with your Sept. issue of the Fanzine is your new membership card. The number printed on it is your own personal number. Please quote this number with all correspondence.

bye for now

Darren and Daniel managed to sign some Australian versions of the debut album as well as the original **Break Me Shake Me CD single** (which has since been deleted and replaced with a version with Moon and Back re-mixes). We have 12 copies of each to give away to 24 lucky winners.

We also have 12 copies of a special **12" vinyl limited edition U.S "I Want You" Maxi single**. They have been autographed and are truly a collectors item.

You also have a chance to win one of 12 of the new versions of **"Break me, Shake me" CD single**. SEE INSIDE FOR MORE DETAILS!!

We would like to wish you all 'Good Luck'.

You will also notice there were 6 lucky winners (instead of 3) of the original red cover version CD Single of "I Want You". We were extremely lucky in acquiring the extra 3 copies that we gave in last issues competition (winners listed on this page). We have had so many inquiries from fans wanting to buy that particular CD, but unfortunately it was deleted last year when the remix was released and we are unable to get any more copies at this time.

SONG LYRICS

THISSIDEOFME

*I want to move in time with you
I want to breathe in rhyme with you
I want to feel the deepest kiss
And I want to know you feel like this*

Chorus

*For this one time, one time
Let my body do what it feels
For just one time, one time
Let this fantasy become real
Because I am not afraid to let you see this side of me*

*I want to feel your hand in mine
And I want to feel that rush in my spine
I want to wear the scent of you
And do all the things you want me to*

Repeat Chorus

*I feel the danger, the separation
I want to take your invitation
This separation it's all around
I need this side of me*

*I want to move in time with you
I want to breathe in rhyme with you
I want to stitch my clothes in sin
And in the dark
I want to find that door and go within*

Repeat Chorus

LOVECANMOVEYOU

*Get me through the heart of the freeway
Got to see the lights up in New York city
I'm so close I think I can hear the sound of the taxi siren symphony
Don't you want to feel amazing?
Baby you know I do
You get back ten times what you give freely
Like my mamma told me*

Chorus

*Love can move you take you deeper every time
Can make the darkest moments like heaven's come alive
Love can move you to a place inside your heart
Where you can fear no evil and acceptance is a natural part of life*

*Get me to the heart of the subway
Creepin' like a snake into New York city
I'm so close I think I can see those lights
Let the sun get closer to the ground
Don't you want to feel amazing?
Baby you know I do
You get back ten times what you give freely
Like my mamma told me*

Repeat Chorus

*And I breathe the love you've given
And I feel the love you've hidden
And though it's cold down here well I can honestly say
I can still stay*

*That love can move you
That love can move you too child*

Repeat Chorus to end

WIN!

QUESTIONS ANSWERS

1. Because you are always busy, when you get free time, how do you spend it?

Lauran Spillane NSW. Melanie Miller NZ. Clare Stephens QLD. Kirstie Tapps SA.

Daniel: Basically I love to relax to a point where I get bored and that doesn't take a long time as I always feel I have to do something. I love to get outdoors and to swim. I plan to learn to ski this December in the Northern hemisphere's winter.

Darren: We work so hard but we also get to travel the world, stay in nice hotels and see beautiful things, so our work time is actually quite exciting. When I have free time (and believe me that is not often) I usually hang out with my family and friends doing mundane things like going to the movies, going out to dinner or sitting home and watching a video. I too find it hard to switch off so usually relaxation is difficult. I do love hunting around for Star Wars toys and just doing normal day to day things that the normal person does, because these are the things I miss when I am away.

2. Which is your favourite song (apart from Moon and Back)?

Joanna Leung NSW. Sarah Wiley NSW. Brenda Whitworth QLD. Kristy Free ACT. Fiona Mount NSW. Tanya Harrison QLD.

Daniel: a couple of songs for different reasons. Break Me and I Want You for live performance because of the energy that we can generate from the excitement. Carry on Dancing for the listening with headphones, the song is full of little sounds that create a wall of sound it is nice to hear the placement of various instruments used.

Darren: On this album? Probably Carry on Dancing. I also love Santa Monica. My favourite song is usually our latest. For a while it was "I'll Bet He Was Cool" and now I love "Love Can Move You".

3. Have you ever wanted to be something other than a musician/vocalist?

Sonia Jainiswal VIC. Sarah Hardy SA. Kirstie Tapps SA. Kelly Bacon VIC. Angelique Manousakis VIC. Cindy Reading NC USA

Daniel: My goal as a teenager was to play Wembley Stadium in soccer. Now that has changed to playing the same stadium in music.

Darren: Yes. I always wanted to be a special effects person for the Star Wars films or a writer maybe. I saw the movie "Romancing the Stone" and loved the scene where Kathleen Turner had her typewriter and was finishing her novel in front of the fireplace. Seemed like a really cozy job! I started many epics that never got completed as a child.

4. To Daniel: How many musical instruments do you actually play and how do you play all of them at live concerts?

Jamie Young NSW.

Daniel: I play the guitar and keyboards in the studio. I swap between them on stage depending on the needs of the particular song. We have a five piece band who also play with me.

5. To Darren: Who does the posh speaking part in the song "All around me."

Jamie Young NSW. Leisa Robinson QLD. Emily Marsh NSW. Amber Dalby NSW.

Darren: I actually do all the vocals on the album apart from the countdown that Daniel says in "Moon and Back". The posh speaking part is a character I guess. You may see him on tour.

6. Did Darren ever take singing lessons?

Janis Simons WA. Darah Burchfield TX USA. Arnavaz Lindsay QLD.

Darren: I did but not a lot. When I was in my first year of university I had my first lessons. I only had about 6. When I joined the band with Daniel I saw a couple of teachers when I started having problems with a sore throat. Years went by and I saw nobody until recently. There is a woman in Sydney that I see occasionally and also a gentleman in New York who worked with Lenny Kravitz and Living Colour. I have never been a taught singer. I am a natural singer who makes lots of mistakes but I love what I do. Seeing a vocal coach for me is about keeping my voice healthy, not learning how to sing.

7. You both have different musical influences.: Which influences are strongest and in which Savage Garden songs are they most evident?

Lenny K.P VIC

Daniel: Inxs and Seal have been an inspiration for me and I find them evident in various songs including "A thousand words" "Violet" and very much in the new b-side "Love Can Move You".

Darren: I think you can hear my love of Michael Jackson on "Break Me Shake Me". I think you can hear little bits of Prince in "All around Me" and "Violet". I am a huge U2 fan but I cant hear them on any of the album.

I do see a U2 influence in the new songs though.

8. Why don't either of you smile in any of your photo shoots?

Nadia and Sharon VIC. Penny Evans SA. Tammy Clarke QLD.

Daniel: Because we leave that to boy bands! Ha-ha. No just kidding. I guess because we take the music very seriously. There have been a few shots of us smiling.

Darren: I have never been the kind of person to smile spontaneously in a photo. I am always laughing and joking but I find it hard to smile when a photographer says "Smile!" it just feels forced to me. And we do take the music seriously a lot of it is quite serious.

Some of my favourite artist (Bono, Prince..etc..) are rarely seen smiling, yet I know that they probably do.

9. Is there a particular reason why as song writers you prefer to write about miserable love?

Kate Gilbert VIC

Daniel: It is more of a rewarding feeling to have a song full of emotions that affect people in the same way that those emotions have affected us. I think there are a lot of people who can relate to love lost and we have been there like everybody so it what just what we

had inside us at the time of recording the record. Darren: I think it is more interesting to talk about the things like misery or wanting because these emotions are painful and in need of attention. I think that is very easy to write about happy situations and love that is perfect. I am more interested in the reality. Sometimes life isn't perfect and that is what we were talking about with a lot of the love songs on the album. Yet I think there are also really happy moments as well.

10. What is the orange thing on the back of the SG album cover?

Amber Sierek NSW. Janis Simons WA. Sam Friend VIC.

Darren: the object on the back of the album is actually a fruit like a pomegranate. You see, when we did the photo shoot for the album, we worked with a photographer called Yelena who worked with the Smashing Pumpkins. She is very gothic and introduced us to the painting "Garden of Earthly Delights" which featured the same fruit. If you have a look inside the album under the CD you will see this fruit. So Yelena took objects like the fruit and the owl from the painting and used them in a photoshoot. We loved the ideas and the painting so much it became a part of the packaging.

10. You said Whigfield and Spice Girls deserve to be put in a garbage compactor why did you say that and are you getting up yourselves?

Sam Friend VIC. Rachel Thomas SA.

Darren: I believe I did say that and yes I regret it. Actually I don't hate the Spice Girls really but I really did hate that Whigfield song. You have to remember that not everything in the media is presented as it actually happens. If you notice Daniel and I rarely speak badly about other acts even though we really do have strong opinions about some. We feel it is negative and pointless to use the media to criticize other artists. That particular interview, the journalist was asking if I hated any other bands and I said "no" but she kept asking and eventually said "You must really get sick of some songs, what about the Spice Girls?" and that is when I gave my comments. I mean, I am a human with likes and dislikes just like you, but I really shouldn't have said it in a magazine. So no, I don't think we are getting TOO up ourselves!

11. Daniel, how old were you when you left England to live in Australia?

Theresa Murphy QLD. Diane Josey QLD. Sarah-Jane Ridder NSW. Natasha Midgley QLD

Daniel: I was 8 months old. I actually learned to crawl on the ship from England to Australia.

12. Darren, do you play any instruments?

Lisa Menolascina VIC.

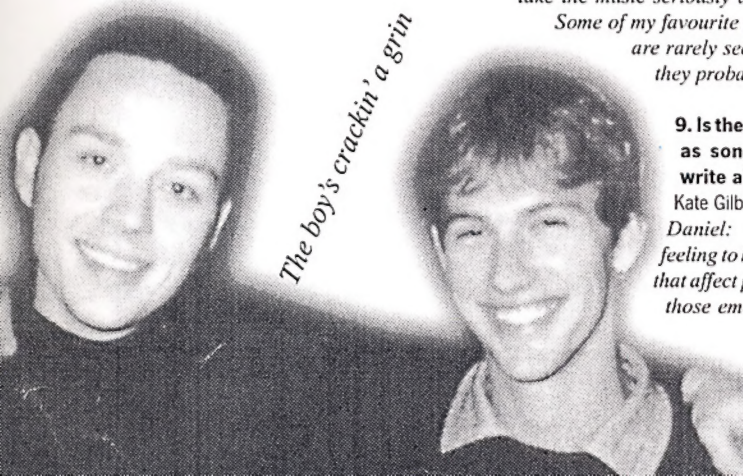

Shannon Ahern NSW. Kristen Williams NSW

Darren: No I don't although I recently bought an acoustic guitar so I hope to learn. Dont expect me to become a guitar legend though. I consider my voice my instrument. The guitar really will be for me to use with our writing.

13. Why do you always wear blue or black?

Jessica Stuart NSW

Daniel: I think because it suits us! Darren really wears more black than me. I wear other colours too.

Recent Happenings

Since we last filled you in Darren and Daniel had an amazing experience in Los Angeles before heading home from the American promo tour. They saw U2's Popmart Tour at the Coliseum (the venue where the 1984 Olympics were held). As you know Darren is a HUGE U2 fan, and Daniel is soon becoming one as well. Darren has seen them perform live a few times - but this was something else. He was front row centre! The guys sat back and took it all in just taking mental notes and thinking about their own shows next year. At the end of the American promo tour Darren and Daniel finished shooting their "To the Moon and Back" video. It was a long story. If you remember, the guys were shooting the Moon video quite a while ago.. It turns out that in the end the finished video was not what they had hoped it would be. Plans were soon underway to shoot additional footage to improve on the video. Creative discussions went on and eventually they decided to shoot an entirely different video. The problem with the first one was not in the quality, the video was actually very good. But it just didn't seem to have the emotion and the story line that the guys had hoped. So at the end of the previous American promo visit they went to Malibu to shoot a new video. It was filmed in the home of an architect. The building was very surreal. Lots of bright colours and sharp angles. Not the kind of home you would find easy to relax in - but definitely a stunning location. The video is very simple, just based on performance and the feelings of one female character. So somewhere out there is a

completely different video for the American release of "To the Moon and Back" that will never see the light of day! Ironically, in Australia the song took 3 mixes to get right, and the video took two attempts. It has been a difficult journey for the track, but it has finally made it. When they returned home, the boys had a week off and then headed straight over for their Asian promo tour. It

was a very difficult time.

The schedule was very hectic and the heat

was incredible. Because there were so many countries and so little time, the days were long and busy. There were some amazing experiences with fans. In Japan, Thailand and Kuala Lumpur, the fans were very generous, often following the guys around and giving small traditional gifts.

In Singapore Darren and Daniel were met by hundreds of fans at the airport. The guys didn't expect to be so popular when they arrived at the airport.

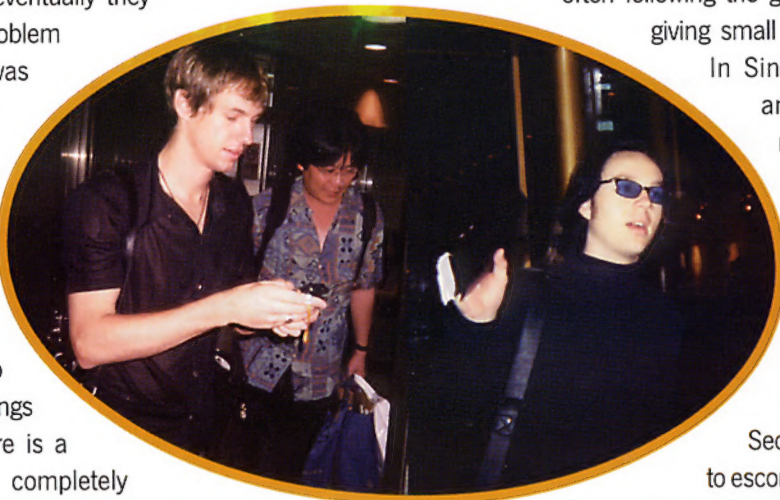

Security guards had to escort them out to the waiting vans. Just as they made

it to the cars, one fan broke through the crowd and sprayed Darren in the face with a water pistol!!!! It was actually very scary. Although the fan was probably joking, it really scared the crew. Darren stopped amid the rush (which was getting very pushy) and was very shocked. So the arrival at Singapore was very rushed. Darren and Daniel want to say for the record that they love their Singapore fans and do not have bad feelings about what happened.

It just made everyone aware of safety in the future. The guys wish they could have stopped to say hello and sign autographs, but there were so many people it would have been too dangerous for the crowd. People may have been trampled.

After Asia, the guys travelled back over to the United States where they performed acoustic versions of their songs at radio stations around America. They got to visit Miami, Houston, Dallas, Boston, Los Angeles and New York. In their travels they managed to fit in a performance on The RuPaul Show and the Keenan Ivory Wayans Show. A week of recuperating

savage

e garden

George Michael's videos. After that they will head through Europe to promote the release of Moon and end up in Germany for a Pop festival where they will be performing live to thousands of people. A huge event to be filmed by national German TV and broadcast to over 60 million people across Europe. The guys finish their performance and get straight on a plane heading back for the Australian Record Industry Awards where they have been nominated for a **record 13 awards**. This is the most number of nominations **ever** for an artist at the awards show, and the boys seem hopeful about winning at least one!

WORLD TOUR

Pssst! Remember we told you we would always try to pass on the news first? Well this really is an **EXCLUSIVE**. The media have only been given a very basic hint but we wanted to let you know that Savage Garden are indeed in the process of organizing a brand new world tour to begin in Australia late January. None of the details have been confirmed yet but we can tell you that during November, December and January the guys will be busy rehearsing their tour with the working title of "Savage Garden Future of Earthly Delites Tour 1998". Of course these details may change but at the moment they have met with set

designers and are designing an amazing stage that they plan to take on the road with them. The shows look set to kick off on the 28th of January. At this stage the tour will begin in Australia in North Queensland, with dates in Cairns and Townsville. Then around the country playing all capital cities with shows in Sydney, Melbourne, Brisbane, Adelaide, Perth, Newcastle, Canberra and Tasmania. By March or April they hope to play dates in South East Asia, Singapore and Japan. Perhaps in Summer they hope to be in Canada then on to the United States, with dates in Europe to follow towards the end of the year. As we said, this is all very early stages but a press conference around the end of September in Sydney is planned to announce the Australian dates. The band have told us that this is a real "show" and to expect something really special. We will hopefully be able to organize advance purchase tickets for all members and special pre-show meet and greets in all capital cities. More next issue!

ANNOUNCING THE RELEASE OF THE BRAND NEW SINGLE "UNIVERSE"

to be released for sale mid october

1. UNIVERSE

2. LOVECANMOVEYOU

3. THISSIDEOFME

4. UNIVERSE (The Future of Earthly Delites Mix)

Darren says of the song UNIVERSE - *"During the writing process this song was originally an instrumental track possibly suited to guitar. We tinkered with it and added a motown influenced melody and the track seems to have taken on a Smokey Robinson feel, worlds away from where it began, but firmly rooted in the original structure. A slow sexy groove cemented by a fantastic mix from Mike Pela."*

UNIVERSE is a beautiful ballad, in the tradition of Truly Madly Deeply that will definitely cross over to all radio formats and prove once again that Savage Garden are still capable of yet another hit single from their multi platinum selling album. The album has been on sale since the 24th March 1997, and in the short space of six months it has sold close to 500 000 copies in Australia alone.

ALSO FOR CHRISTMAS

Repackaging of their Self Titled Album Savage Garden

Also included with packaging will be US remixes from some of their tracks such as Santa Monica, All Around Me, I Want You, To The Moon and Back, Carry On Dancing and Break Me Shake on a bonus disc.
